

*We first learned about GFI when we were expecting our first child. We had some ideas about what we wanted to accomplish with our children; the GFI curriculum helped us understand & apply biblical principles. We are grateful that we had the opportunity to study what the Ezzos have written for these classes. We are still learning how to apply the principles in our family of four boys, & it is making a difference in our family! We are blessed to know Gary & Anne Marie and have experienced their Christian love and support of our family personally.*
