

We are happy to join you in support of Gary and Anne Marie Ezzo and their courses in Brazil.

From the very first time we met the Ezzos and got to know their materials we realized that we had found something that had the potential to change our country. Teaching parents principles of parenting will potentially diminish problems in the teens and in marriage relationships.

We have participated in the process of translation of their curriculae and have seen tremendous results in the lives of those going through *Growing Kids God's Way* and now *Reaching the Heart of your Teens*.

My wife and I have been Gary and Anne Marie's interpreters in Brazil and we have been enriched by their fellowship and their wise counsel. It is a great honor to consider them our friends.

May the Lord bless you in the carrying out of this project.

In His service,

Haroldo and Charlotte Silva
